#### Membership Rules:

1. The safety of the dogs and handlers is our number one concern. All handlers must bring a crate. Dogs must be crated when not working in the ring and be leashed when moving from crates into and out of the ring and building. Following this rule is absolutely critical to our being able to obtain insurance and offer memberships.
2. One dog at a time off lead on the training course.
3. If a dog relieves itself in the building, the handler must mark the spot and thoroughly clean the spot of all pet waste with the supplies provided. Handlers must pick up all their dog's solid waste and dispose of in the outside container. Handlers must pick up and dispose of their dog's solid waste from the QCDC grounds and surrounding properties.
4. Any equipment taken out to practice that is not part of the training course should be replaced where found when finished.
5. Handlers are prohibited from adjusting thermostats in the building. If temperature is unsatisfactory, management should be contacted.

6. Doors may not be propped open at any time.
7. Door combinations shall not be shared. Sharing combinations is grounds for revocation of membership. If combination is lost or stolen, the member shall report it to the management so that the combination can be deactivated and a replacement combination issued.
8. Handlers are prohibited from entering the office or the supply room without the express permission of the management. Handlers may not use the golf cart.
9. Handlers may use the upstairs matted area for puppy and obedience work.
10. Handlers are welcome to bring guest humans for observation only. Guest dogs are prohibited.
11. Handlers may not bring professional trainers for lessons during the members' only periods.
12. Member\handlers must turn off all lights (including restrooms) and make sure door is locked if they leave the building and no other members remain.
13. When multiple members are present, they should agree on a reasonable amount of work time on the course before rotating out to the next handler\dog team. If members can't agree, the default maximum work time will be 5 minute periods. Members may choose to remain for as many 5 minute rotations as they wish until the closing time of the building.
